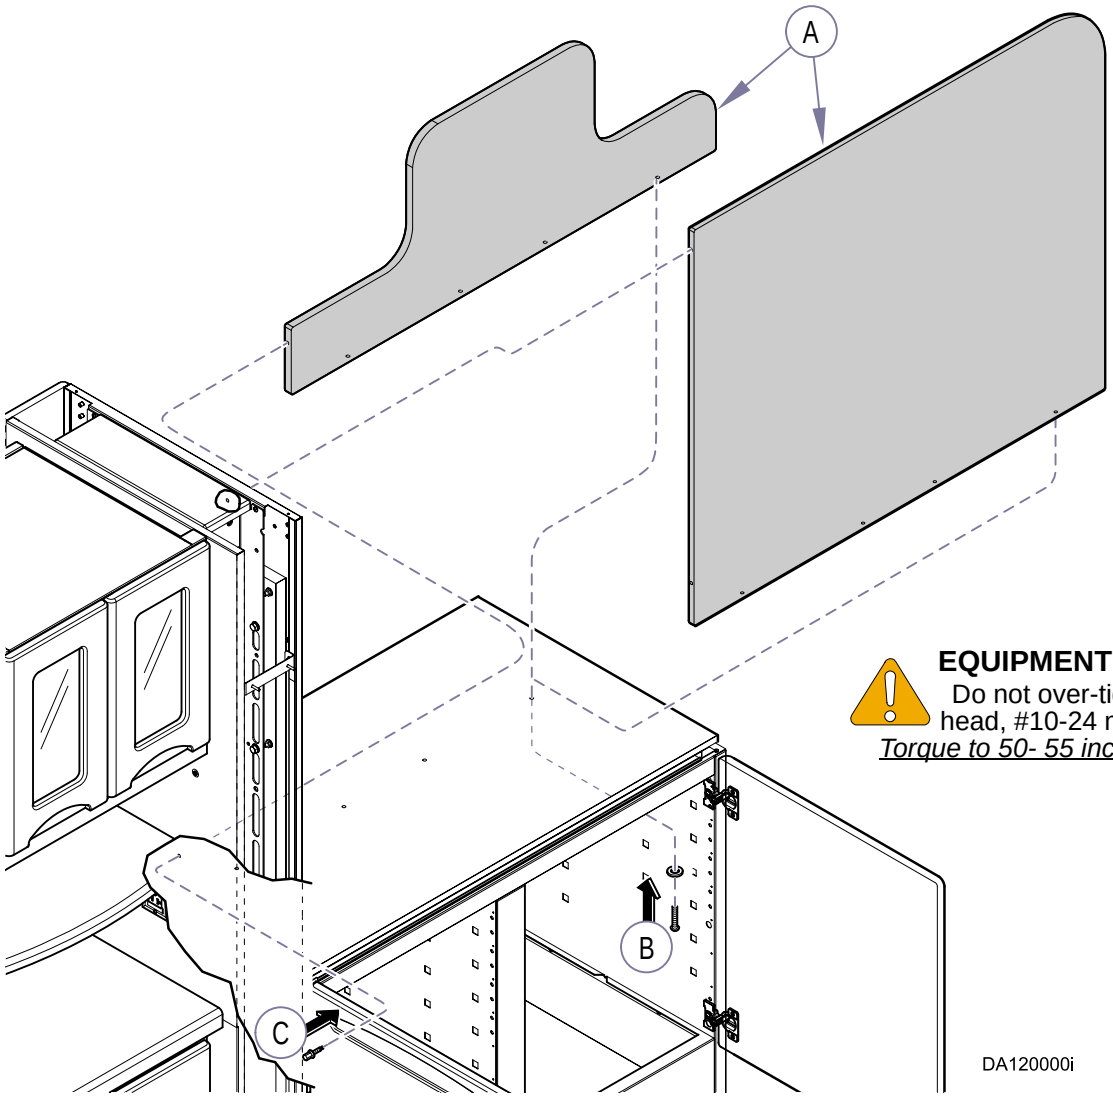
Installation Instructions

Equipment Upper Privacy Panels

GENERAL INFORMATION

Privacy panels for the Equipment Upper area are available in either Full or Partial panels. The Equipment Base counter top will be pre-drilled for installing the four #10-24 x 2" phillips head mounting screws. Depending on which size Privacy Panel is used, either one or two 1/4" hex head #10-24 x 5/8" mounting screws will secure the panel to the Center Console.

PANEL INSTALLATION



EQUIPMENT ALERT
Do not over-tighten the hex head, #10-24 mounting bolts. *Torque to 50- 55 inch/lbs (max).*

A. Place Privacy Panel in position, aligning mounting holes in counter top with nutserts in panel.

B. Install four #10-24 x 2" phillips head screws with washers.

EQUIPMENT ALERT
Do not over-tighten hex head mounting bolts. Torque to 50-55 inch / lbs.

C. Install one or two 1/4" hex head #10-24 x 5/8" mounting screws, depending on size of panel, through Center Console
